[Additional Comments](#)

Fill in your details, name, email address and phone number. Kreative Kiwi is a reputable site and a New Zealand designer so safe to do with this website.

Ensure to click in the little white box next to the line **I'M NOT A ROBOT** (it will not let you go any further unless you do) and left click on **SUBMIT YOUR ORDER**.

An email will be sent to you containing your design.

Open the email and click on the blue '**Download File**' next to your design (pretty much in the middle of the page).

The design will now be opened onto your computer and can also be found in the downloads folder later.

This will be a zipped folder, that you will see at the bottom right-hand corner of your screen, as shown above. Most modern computers today already have a program that will automatically open this for you.

Double left mouse click on the zipped folder to open your design.

Here you will see different size options and design format options.

There will also be a PDF file at the bottom for your instructions.

If you feel comfortable, go ahead, and place the JEF design of your choice onto a USB stick OR bring your laptop along and we shall do this step in our club session.

You may like to either print the instructions or bring along your laptop to read the instructions as you go.

If you have access to the Internet at home, please give downloading a free design a try. If you do not have the Internet then it is not a problem, I shall give you a design to stitch out.

Thank you!
